

Tattoo/PMU Removal Aftercare

Starting TODAY: Lightly dampen a cotton round with saline wound care water and pat brows 3-4 times a day for 7 days.

AFTER all scabs have fallen naturally: Apply a tiny amount of Vitamin E Oil on brows 3-4 times a day until your next appointment.

Follow below instruction for the next 2 weeks!

DO NOT pick, scratch, or rub the treated area - Tap to release itch.

NO makeup on the treated area

NO excess water - Pat to dry if the treated area is wet.

NO excess sun exposure

Avoid sweat producing workout

Avoid sleeping on either side of your face

MOST IMPORTANT - Do not freak out and be patience!

FAILURE TO FOLLOW AFTER-CARE INSTRUCTIONS MAY RESULT IN INFECTIONS AND/OR SCARRING.
